

Environmental Sustainability Policy

Easy Read version

Approved by DIY's Board February 2022

DIY wants to look after our
environment

Our natural Environment is air, water.
land and all living things

We will keep our green spaces tidy

We will reduce how much water we
use

We will recycle

We will re-use props and materials as much as possible

We will share taxis and use public transport as much as possible

We will take notice of our environment
and encourage others to

We will work with organisations like
Peel Park Rangers and Friends of Peel
Park who do conservation

We will do outdoor performances
about the environment

We will encourage people to value and protect green spaces

We will do workshops with people with learning disabilities about environmental themes

We Want to Learn about Climate Change

Learn

We want to learn more about the Causes of Climate Change

We want to learn more about how climate change is affecting the planet

We want learn more about how climate change is affecting people

We want to teach others about
Climate Change

We want to do education with other groups about Climate Change
