

DIY'S Friday Group share their thoughts on Leadership

Leadership doesn't have to be about
heroic individuals - it can be shared.

At DIY we see Leadership as something
that is made through relationships
and dialogue.

Leading it... Our way!

Here are some of the things we think about Leadership at DIY.

- ★ We can be leaders some of the time and followers some of the time.
- ★ We often use a hat or a scarf to show who is leading.
- ★ We can use our bodies – we don't need to use words or write.

- ★ We can stretch leadership and pass it on to others – like the young people we're working with.

- ★ DIY uses a visual plan with images and we use props to remind us of our workshop structure.

- ★ We use a loose structure so we can respond and react to what happens in the workshop.

- ★ Our theatre training and experience helps us to improvise and respond in the moment.

We believe that to make this kind of Leadership, we need to change the ways we usually do things and take risks.

We believe it's important that more people become involved in making Leadership. Everybody benefits from taking a fresh look at Leadership.
